

ORGANIZATION DETAILS

Organization Name

LIGHTWEIGHTWORKS
structures for our sustainable planet
(Trading as Event Canopies Asia Limited)

Organization Description

唔想成世做一樣嘢？想做啲有挑戰、有技術、有成就感嘅工程？
Don't want to do the same thing forever? Want a technical, challenging role where you see your work built?
We design and build lightweight tensile structures and engineered shade systems across Hong Kong. We're looking for someone who wants to work across design, fabrication, and site installation, not just one part of the process.
If you want to see your work built, not just talk about it, keep reading.

JOB DETAILS

Position

Technical Project Coordinator (Design–Fabrication–Site)

Job Description

What You'll Do

- Turn technical drawings into buildable components
- Coordinate with factories on fabrication
- Prepare and check materials in our warehouse
- Lead and support installation on site
- Work directly with our detailing engineer, project lead, and installation team
- This is a **hybrid technical role** - office, factory, and site.

Who You Are

	• You learn fast and take initiative • You enjoy both drawings <i>and</i> hands-on work • You want variety, not repetition • You like solving problems and seeing results • You want to grow into a Project Engineer or Project Manager • You might be a draftsman who wants site exposure, a technician who wants to move up, or a junior engineer who wants real responsibility. What You'll Gain • Training in structural detailing and tensile structures • Full lifecycle project experience • A clear growth path • A role that's never boring
Minimum Qualifications	• 1–5 years in construction, engineering, drafting, or fabrication • Able to read drawings (basic level OK — we train) • Cantonese required; English/Mandarin an advantage • Manager
