3.0 Construction Managers Registration Regulations

These Regulations have been adopted as Bye-Laws by the Institution under Clause 10.3 of the Constitution at a General Meeting held on 19 December 2013 to provide for the registration of construction managers and disciplinary control of the professional activities of registered construction managers, and for related matters.

Under the regulations the registration of construction managers is undertaken by the Construction Managers Registration Board. The Board acts independently and is primarily responsible to the public at large. The Board consists of not less than 10 Corporate Members and not more than 3 non-members of the Institute appointed by the General Council. The Institute provides the administration services under the direction of the Board.

The purpose of registration is to confer on suitable applicants a title, which demonstrates - both to professional construction managers and to the public - a high standard of professional training, competence to practise, and a relevant background for working in Hong Kong.

A person who is on the register may use the title "Registered Construction Manager", or "R.C.M."

Under the regulations, the qualifications for registration are closely linked with the qualification standard for membership of the HKICM.

To qualify for registration, an applicant must be ordinarily resident in Hong Kong and must have at least two years' post-HKICM qualification and relevant professional experience in Hong Kong.

Registration is required to be renewed annually and all registrants are required to make a written declaration of their current competence to practise, both at first registration and at each renewal of registration.

Registration is entirely voluntary. It is emphasized that the register is primarily for the use of the public, to permit them to identify appropriately qualified construction managers, either with reference to the register, or by selecting construction managers who use the title, "R.C.M."

In connection with the Personal Data (Privacy) Ordinance, all Registered Construction Managers should be aware that their names, addresses and qualifications are recorded on the register and are made available to the public on request.
