

President's Message

HKICM has entered its 15th anniversary year and I am glad to see our institute already being 15 years old with number of achievements that we have attained in the past years under the leadership of our past presidents despite our institute is young in comparing with other professional bodies in Hong Kong.

I shall also finish my tenure as the president by end of this year and hope that I could finish the targets in the remaining period that I made at the beginning upon my appointment. Nevertheless, I would like to express my gratitude to all our office staff and council members in their hard working in this year dealing with the institute matters and the new tasks that we made to go with, like the formation of Registered Construction Manager Board, list of qualified members for the reporting scheme for unauthorized building works in NT exempted homes under Building Department, pro bono mediation scheme, the Construction Management Research Award, 15th Anniversary Dinner etc.

The steady growth of our membership is the good rewarding to our hard working and it is pleased to see that more people are knowing the name of HKICM and also our playing role in the industry.

We will continue to do our best in giving advices and opinions to the Government in making the policy in relation to the construction industry and build environment policy in the place where we live and work. Besides, I would like to take this opportunity to welcome our new Deputy Secretary General Mr. Harry Ma to join HKICM in July and his participation will be greatly in strengthening our staff team in dealing with the heavy work load that we are being encountered with the tasks as mentioned above in the past months.

In celebrating this important year, we have fixed up the date of our 15th Anniversary Dinner on 6 of September at The Hong Kong Conventional and Exhibition Centre and are delighted to have Mr. Wai Chi Shing JP Permanent Secretary for Development Bureau to act as our honorary guest.

On that night we are expecting to have at least 28 tables and more than 300 guests including our guests from China will join this important event. We will also announce the winners of the Construction Management Research Award in the year 2012 in that night and I am sure that we will have the best night on that day in celebrating the birthday of our institute. Thanks for the organizing committee chaired by Mr. Eddie Lam in their hard working in preparing for this important event to be run successfully.

Hong Kong Institute of Construction Managers

In providing services to our members, we have made and continue to host different CPD events during the year. We would like to encourage our young members and construction supervisor members to join the events and also fully support the activities organized by our Young Member Committee (YMC). It is fully evidenced in the good responses to the recent site and factory visits by YMC.

At last, I would like to call more suggestions and opinions from our members in sharing your views on different aspects and your actively involvement and contribution will definitely help the growth of our institute. Thanks again the support to me from our members in my tenure.

Ng Yau-yee, Peter

President

2011-12
